

## SFERA / SPHERE

SFERA is reflection to the artist. Soft lighting makes the moment an occasion for relaxed tasting. The spherical shape in the hand is an apple that fills the palate with crisp and pleasurable sensations, conciliating memories and inner thoughts. The colours are warm and intense. The yellow is alight like the lamp above. It is a simple moment of subtle sweetness for inner contemplation and reflection.

### THE WINE

Pecorino is a vine associated to the sensation of solidity. At one time, it disappeared but made a successful comeback, characterised by great wholeness. It is identified immediately by its golden colour. It stands out from other white wines. Mineral and citrus aromas fill the nose. The vinification methods used without oxygen give life to an explosion of tropical fruit aromas. The taste is rounded, full-bodied, structured. The level of extract, together with a certain amount of alcohol, highlights its savouriness.
